

THE LEADER

In Vented Outboard Motor Covers
& Marine Accessories.

Made in the USA Since 1999!

Tuff Skinz motor covers are vented and specifically designed to use on your motor at all times — even when running!

A Tuff Skinz cover can help increase the resale value of your boat by keeping your cowling in pristine condition — the ultimate protection. Each Tuff Skinz cover is custom designed for your particular cowling, with strategically placed air vents and water ports to allow optimum performance! Tuff Skinz covers are made from a marine-grade, woven, polyester fabric that is treated with a UV and water repellent coating. The white underside is a soft, felt-like, non-woven, non-abrasive 100% polyester backing to protect your motor and keep it looking new.
