

TUFF SKINZ

VENTED OUTBOARD MOTOR COVER + OTHER PRODUCTS.

Tuff Skinz motor covers are vented and specifically designed to use on your motor at all times — even when running! With over 25 years experience in the fishing, hunting, and boating communities, we are always working on new outdoor related products and marine accessories. For supreme protection - get tough - get a Tuff SKinz.

Outboard Motor Covers + Shallow Water Anchor Covers

We cover all major brands of outboard motors and work hard to keep inventory up-to-date! We also carry shallow water anchor covers, covers for your graphs and fish-finders, as well as cable wraps. We can print just about anything you want on any of our covers, from factory look-a-like graphics, to business logos and custom graphics.

Tuff Lock: Motor Cover Lock

Tuff Lock by Tuff Skinz is an easy and reliable way to secure your Tuff Skinz cover. Just feed the 3/8" braided steel cable through the existing strap loops, pull it tight and lock it down! Great while traveling or securing at the dock or in storage.

Baitcast Reel Cove

Our reel covers are built to protect your valuable reels for years to come. They are constructed of the same tough fabric that our motor covers are made of but have neoprene sides for a custom one-size fits most protective cover. They have a soft inner lining to protect your reels in transit or storage. Add your logo for large orders.

Trolling Motor Cable Wraps & Rigging Sleeves

Made from the same material our covers are made from, our Cable Wraps help secure and organize your trolling motor cables - will work for multiple applications. Cable Wrap measures approximately 34.5". Rigging Sleeves come in 33" and 40". Held together with strong velcro strips - no need for zip ties! Put your logo on these!

Graph Covers + Carrying Case

Our covers slide right over the graph with or without the factory protective shield. They also have handles and act as a protective transport/carrying case. They have a padded interior for ultimate protection. Put your logo or custom name on these! *(DOES NOT work with flush mounted graphs).*

Bait Mate

Designed for anglers who need super quick access to their spinnerbaits, crankbaits, and jigs. With the Bait Mate you can hang up to 16 baits from the inside of your boat storage box lids, or on any other flat surface that you choose. Each Bait Mate is made of aluminum so it will not rust and it is designed to last a lifetime.

BAIT MATE

Son Of A Hitch

Made from the same material our covers are made from, our Son Of A Hitch covers wrap around the hitch receiver and stay on while in use. They protect your lower legs while you maneuver around the back of your truck. Held in place with a strong velcro strap – no need for zip ties!

Tuff Stuff Protectant

Tuff Stuff is specially formulated to protect your Tuff Skinz motor cover and helps maintain color, water resistance, and UV protection for extended life of the motor cover. Simply clean your cover, then spray on and wipe with a sponge and allow to air dry. Good for general maintenance and works on any of our cover types.
